Good afternoon, all –

As you may have heard, the Freedom of Information Act (FOIA) can be a hot button topic in the federal government. Not to worry: the Office of the General Counsel and FOIA Service Center are providing training to answer all your FOIA questions, including:

- What are our obligations under FOIA?
- Who can file a FOIA request?
- What records fall within the reach of FOIA?
- Does FOIA allow us to protect any of our records from disclosure?
- What are the most common types of FOIA issues raised at the Department?
- What do we do if we receive a FOIA request?

Please join us for this informational training, and learn how we at ED put the “fun” in FOIA!

Good afternoon, all –

As you may have heard, the Freedom of Information Act (FOIA) can be a hot button topic in the federal government. Not to worry: the Office of the General Counsel and FOIA Service Center are providing training to answer all your FOIA questions, including:

- What are our obligations under FOIA?
- Who can file a FOIA request?
- What records fall within the reach of FOIA?
- Does FOIA allow us to protect any of our records from disclosure?
- What are the most common types of FOIA issues raised at the Department?
- What do we do if we receive a FOIA request?

Please join us for this informational training, and learn how we at ED put the “fun” in FOIA!

FOIA, Privacy, Records, and Data Management

THE BASICS

February 2017

**Kathleen M. Styles
Chief Privacy Officer**

Agenda

- ☐ Transparency overview
- ☐ Records Management
- ☐ Freedom of Information Act (FOIA)
- ☐ Paperwork Reduction Act (PRA)
- ☐ Handling sensitive information
- ☐ Where to go for more information

Transparency 101 for Federal Officials

- ☐ Transparency requirements for federal officials are increasing. Think FOIA, GAO audit, oversight requests, etc.
- ☐ The best rule is to assume that **every word** you type will be made public.
- ☐ Know that deleting an email does not actually delete it.
- ☐ Keep a clear personal/professional separation.

Records Management: What Every ED employee Needs to Know

- ☐ Capture and preserve information that is a federal record.
- ☐ Manage federal records appropriately and ensure they can be accessed by authorized staff.
- ☐ Protect federal records from unauthorized destruction.
- ☐ Use government email account to conduct government business.
- ☐ Be aware that all email and attachments are captured and preserved.

Record vs. Non-Record

RECORD

Created/generated/received by an organization for use in technical or administrative work to conduct agency business, or

Contains informational value as evidence of the organization's functions, policies, decisions, procedures, operations, mission, programs, projects, or activities, or

Material that originated in another office or outside the agency, but which the agency commented or took action on, or

Documents business actions, such as: what happened, what was decided, what advice was given, who was involved, when it happened, the order of events and decisions, or

An original document related to agency business that does not exist elsewhere.

NON-RECORD

Drafts or interim documents that have not been circulated to others or do not contain substantive comments and for which a final version being maintained, or

Published or processed information received and used as reference, or

Copy of a document or correspondence kept only for convenience of reference on which no action is taken, or

Information accumulated and maintained at the workplace, but which does not affect or reflect the transaction of the program's business.

What is a Federal Record?

- Examples: Correspondence, Agreements, Studies
- Examples: Mission-related policy development, controlled correspondence
- Examples: Calendars, meeting minutes, project reports
- Examples: Administrative records, dockets
- Examples: Grants, contracts, litigation case files
- Examples: Guidance documents, policies, procedures

What is an Electronic Message?

When is an Electronic Message a Record?

On May 1, 2017, the Department of Justice announced that it had received a request from the American Oversight organization for records related to the investigation of the 2016 presidential election. The request was for records related to the investigation of the 2016 presidential election, specifically for records related to the investigation of the 2016 presidential election.

The Department of Justice responded to the request on May 1, 2017, stating that it had received the request and was reviewing it. The Department of Justice stated that it was reviewing the request and was working to provide the records as soon as possible. The Department of Justice stated that it was reviewing the request and was working to provide the records as soon as possible.

When is an Electronic Message NOT a Record?

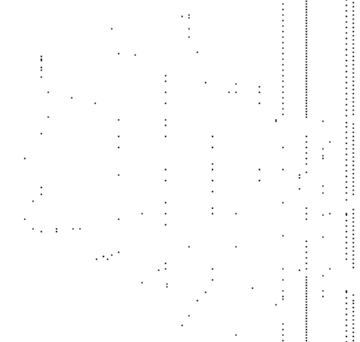

Your own electronic messaging relating to:

- ☐ Business, professional, or political activities unrelated to ED.
- ☐ Personal or family matters.
- ☐ Volunteer and community service.
- ☐ Work activities maintained solely as personal observations or as memory joggers and **not used for government business.**

Text and Instant Messaging Records

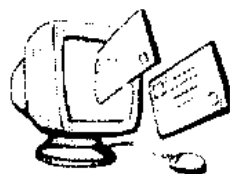

- ☐ ED policy prohibits use of text messaging or instant messaging for creation of federal records.
- ☐ Texts and IMs are considered “transitory records” and should be deleted after 30 days.
- ☐ If an electronic message is a record, you are required to capture, preserve and forward to the ED e-mail system. Here's how:
 - Copy the text message in its original format or transmission; and
 - Forward a complete copy of the record to your Outlook email within 20 days.
- ☐ There is currently no way to delete instant messages on Skype; we are working with OCIO on this.
- ☐ We recommend you manually delete transitory messages on your government phone every 30 days.

Capstone Approach for Managing E-mail in Enterprise Vault

- ☐ All e-mails sent or received from your ED email account are automatically captured by Enterprise vault. **EMAIL DOES NOT GO AWAY.**
- ☐ Emails from designated Senior Official are permanent records and will be transferred to the National Archives upon meeting their retention period.
- ☐ All other e-mails are retained for 7 years and then deleted (unless there is a litigation hold).
- ☐ You must file your e-mail when the related records must be retained longer than 7 years according to the records retention schedule.
Examples: Grant Management Case Files (10 years), Litigation Case Files (15 years), Federal Student Aid Files (10 years).

Do NOT Conduct Government Business On Your Personal Account

- ❑ Per the amendments of the Federal Records Act of 2014, an officer or employee of an executive agency may not create or send a record using a non-official electronic messaging account. If you do inadvertently use a personal account or device to conduct government business, you must:
 1. Copy ED email account of the officer or employee in the original creation or transmission of the record; and
 2. Forward a complete copy of the record to an ED email account **no later than 20 days** after the original creation or transmission of the record.

****Electronic messages created or received in a personal account meeting the definition of a Federal record must be forwarded to your ED email account prior to your departure.**

The Freedom of Information Act, 5 U.S.C. § 552

- ☐ Enacted on July 4, 1966, the Freedom of Information Act (FOIA) provides that any person has a right, enforceable in court, to obtain access to federal agency records.
- ☐ Federal agencies are required to disclose any information requested under the FOIA unless it falls under one of nine exemptions which protect interests such as personal privacy, national security, and law enforcement.
- ☐ The FOIA Improvement Act of 2016 requires greater transparency, and more limited use of the deliberative process privilege.

FOIA at ED

- ☐ ED typically receives 2300-2500 FOIA requests per year.
- ☐ FOIA is managed centrally by the FOIA Service Center.
- ☐ Each Principle Office has a “FOIA Coordinator” who coordinates FOIA searches for that office, as well as a “FOIA Senior Leader,” who oversees the process.
- ☐ When a request is submitted, the FOIA Service Center logs it into our system and tasks the request to offices that may have records.
- ☐ FOIA Coordinators and individual employees conduct the search. We have some “admin searches,” meaning that an employee searches all ED records centrally, using key words.
- ☐ We recommend that you mark e-mails that you believe may be protected from disclosure. This will help future reviewers, even if you aren’t here to review the message.

Time Limits

- ☐ Agencies must make a “determination” whether to comply with a FOIA request, and communicate this to the requester within 20 working days.
- ☐ The twenty-day time limit for processing a FOIA request can be extended ten additional days if unusual circumstances exist, such as:
 - The need to search for and collect records from multiple offices;
 - The need to search for, collect, and review a voluminous amount of records; or
 - The need to consult with another agency.
- ☐ For extensions of more than ten additional working days, the Department must also notify the requester, in writing, of the right to seek dispute resolution services from the Office of Government Information Services.

Releasing Information

Unless the record is protected from disclosure by any of FOIA's nine exemptions, ED is required to produce any reasonably segregable portion of a record that is requested.

FOIA Disclosure Exemptions:

- ☐ **(b)(1)** - Protects information that is properly classified in the interest of national security.
- ☐ **(b)(2)** - Protects information related solely to internal personnel rules and practices.
- ☐ **(b)(3)** - Protects information specifically exempted by other statutes.

1. (b) (3) - Exemption from disclosure under FOIA for information that is exempted from disclosure by another statute.

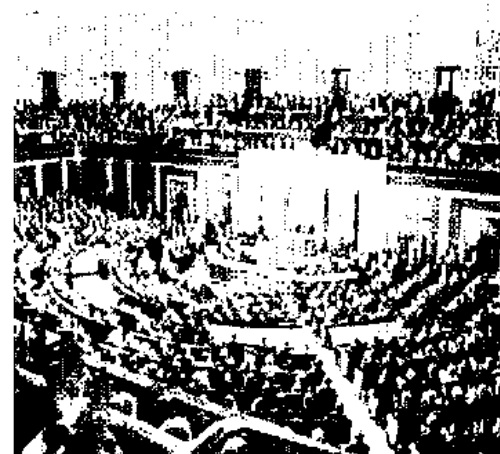

Releasing Information - *continued*

- (b)(1) - Protects information regarding national defense interests and activities, personnel, facilities and other activities.
- (b)(2) - Protects information that disclosure would be injurious to the national defense security.
- (b)(3) - Protects information that disclosure would be injurious to the national defense.
- (b)(8) - Protects information contained in or related to certain examination, operating or condition reports concerning financial institutions.
- (b)(9) - Protects geological and geophysical information and data (including maps) concerning wells.

What is the Paperwork Reduction Act (PRA)?

- ❑ The PRA requires all Federal entities to obtain OMB approval before requesting information from the public.
- ❑ “Collections of information” and “information collections” include all forms, interviews, record-keeping requirements and a large number of other data collection instruments.
- ❑ An Information Collection Request (ICR) is a formal request to OMB to collect information from the public. ICRs consist of:
 - The completed forms and documentation required by OMB.
 - A description of the collection.
 - An estimate of the number of responses and burden placed on the public.

“The Paperwork Reduction Act of 1980, as amended by the Paperwork Reduction Act of 1995, requires Federal agencies to obtain approval from the Office of Management and Budget (OMB) before they can collect information from the public.”

“The Paperwork Reduction Act of 1980, as amended by the Paperwork Reduction Act of 1995, requires Federal agencies to obtain approval from the Office of Management and Budget (OMB) before they can collect information from the public.”

The key drivers for the PRA process are:

- ❑ The Paperwork Reduction Act (PRA) of 1980, as amended by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).
- ❑ The Office of Management and Budget (OMB) regulations on information collections (5 CFR 1320, “Controlling Paperwork Burdens on the Public”).

What is the Timeframe for OMB Clearance?

- ❑ Usually up to 180 days (which allows for comment period notice publications and response to public comments). Most information collections are required to go through a 60-day public comment period while pending in ED followed by a 30-day public comment period when the information collection is submitted to OMB.
- ❑ Under the PRA, OMB may take up to 60-days to review, comment and approve the collection. Discretionary grants and customer surveys are the exception to this rule where there may be one or less public comment periods and/or require less OMB approval time.

Privacy Safeguards: Handling Sensitive Data

- ❑ **OMB defines PII as:** "information which can be used to distinguish or trace an individual's identity, such as their name, social security number, biometric records, etc. alone, or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, etc.".
- ❑ **PII can be non-sensitive or sensitive:**
 - **Non-Sensitive PII:** Information on a business card or in a public phone directory of agency employees is technically PII, but in most cases is not sensitive because it is widely available public information.
 - **Sensitive PII (SPII):** SPII, such as Social Security numbers, medical information, or financial information, requires additional safeguards because of the increased risk to an individual if compromised.
 - **Context Matters:** The context of the PII may also determine whether the PII is sensitive, such as a list of employee names with poor performance ratings.

Protecting PII

☐ Determining Safeguards

- The level of protection should be commensurate with the sensitivity of the data.
- Data, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual, must be protected with appropriate safeguards.

☐ Storage

- PII stored on network drives and/or in application databases must have proper access controls and should be made available only to those individuals with a valid need to know.
- SPII must also be encrypted.
- Only ED-issued and approved thumb drives can be used.

☐ Transmission

- All emails that contain SPII, especially SSNs, must be encrypted.
- You can use Outlook encryption or WINZIP <http://www.winzip.com>.
- Do not email the password in the text of the same email – send two emails.

Protecting PII - *continued*

☐ Hard Copies

- Do not leave hard copies of SPIL in plain view on your desk.
- Before you leave for the day, make sure you have cleared your desk and cabinet surfaces of all SPIL.
- Store SPIL in a locked cabinet.

☐ Disposal

- When you are ready to dispose of hard copies containing SPIL, you must shred the documents. Do not simply place them in the trash or recycle bins.
- Comply with records schedules. If you don't keep what you don't have to, it can't be lost or stolen, nor can it be disclosed under FOIA.

☐ Conversations

- Do not use speaker phones for sensitive conversations.
- Do not talk openly in public areas about personal information.
- Do not discuss personal information with anyone unless they have an agency need to know.

Privacy Breaches

- ☐ A privacy breach is the loss of control, compromise, unauthorized disclosure or acquisition, where PII is exposed to unauthorized people and/or for unauthorized purposes.
- ☐ This includes PII in any format and for a suspected or confirmed loss.
- ☐ If know of or suspect a privacy breach, you must notify your [SRO](#) or the [DOJ](#) as soon as possible.
- ☐ Immediate action is important because agencies must report a breach involving PII promptly.

Releasing Data – Disclosure Review Board

ED-DRB MISSION STATEMENT

The mission of the Department of Education Disclosure Review Board (ED-DRB) is to review proposed data releases by the Department's principal offices through a collaborative technical assistance process so that the Department releases as much useful data as possible, while protecting the privacy of individuals and the confidentiality of their data, as required by law.

What types of data releases need ED-DRB approval?

The ED-DRB is responsible for approving the disclosure avoidance methodologies for all data releases (of individual-level or aggregate data) by POs (excluding FSA and IES) that are derived from data protected under one or more privacy or confidentiality statutes (e.g., FERPA, IDEA, Privacy Act, etc.).

FOIA, Privacy, Records, and Data Management

THE BASICS

February 2017

**Kathleen M. Styles
Chief Privacy Officer**

Agenda

- ☐ Transparency overview
- ☐ Records Management
- ☐ Freedom of Information Act (FOIA)
- ☐ Paperwork Reduction Act (PRA)
- ☐ Handling sensitive information
- ☐ Where to go for more information

Transparency 101 for Federal Officials

- ☐ Transparency requirements for federal officials are increasing. Think FOIA, GAO audit, oversight requests, etc.
- ☐ The best rule is to assume that **every word** you type will be made public.
- ☐ Know that deleting an email does not actually delete it.
- ☐ Keep a clear personal/professional separation.

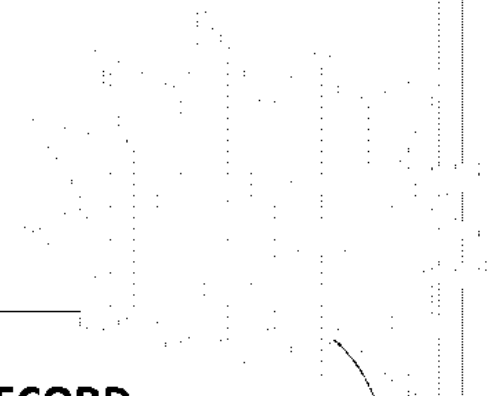

Records Management: What Every ED employee Needs to Know

- ☐ Capture and preserve information that is a federal record.
- ☐ Manage federal records appropriately and ensure they can be accessed by authorized staff.
- ☐ Protect federal records from unauthorized destruction.
- ☐ Use government email account to conduct government business.
- ☐ Be aware that all email and attachments are captured and preserved.

Record vs. Non-Record

RECORD

Created/generated/received by an organization for use in technical or administrative work to conduct agency business, or

Contains informational value as evidence of the organization's functions, policies, decisions, procedures, operations, mission, programs, projects, or activities, or

Material that originated in another office or outside the agency, but which the agency commented or took action on, or

Documents business actions, such as: what happened, what was decided, what advice was given, who was involved, when it happened, the order of events and decisions, or

An original document related to agency business that does not exist elsewhere.

NON-RECORD

Drafts or interim documents that have not been circulated to others or do not contain substantive comments and for which a final version being maintained, or

Published or processed information received and used as reference, or

Copy of a document or correspondence kept only for convenience of reference on which no action is taken, or

Information accumulated and maintained at the workplace, but which does not affect or reflect the transaction of the program's business.

What is a Federal Record?

- **Examples: Correspondence, Agreements, Studies**
- **Examples: Mission-related policy development, controlled correspondence**
- **Examples: Calendars, meeting minutes, project reports**
- **Examples: Administrative records, dockets**
- **Examples: Grants, contracts, litigation case files**
- **Examples: Guidance documents, policies, procedures**

What is **NOT** a Federal Record?

- Examples: Sports schedules, PTA roster, personal appointments
- Examples: Vendor catalogs, phone books, technical journals
- Examples: Duplicate copies or correspondence, directives or publications
- Examples: Drafts with no substantive revisions or comments
- Examples: Rough notes, calculations

FOIA, Privacy, Records, and Data Management

THE BASICS

February 2017

Kathleen M. Styles
Chief Privacy Officer

Agenda

- ☐ Transparency overview
- ☐ Records Management
- ☐ Freedom of Information Act (FOIA)
- ☐ Paperwork Reduction Act (PRA)
- ☐ Handling sensitive information
- ☐ Where to go for more information

Transparency 101 for Federal Officials

- ☐ Transparency requirements for federal officials are increasing. Think FOIA, GAO audit, oversight requests, etc.
- ☐ The best rule is to assume that **every word** you type will be made public.
- ☐ Know that deleting an email does not actually delete it.
- ☐ Keep a clear personal/professional separation.

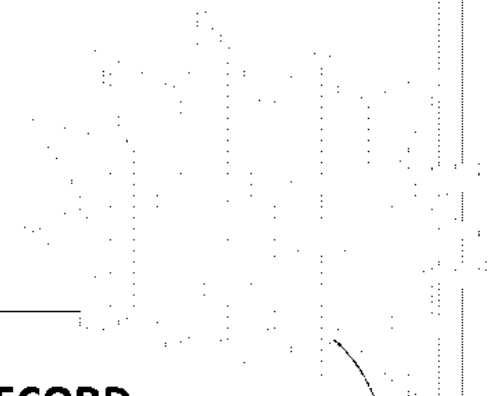

Records Management: What Every ED employee Needs to Know

- ☐ Capture and preserve information that is a federal record.
- ☐ Manage federal records appropriately and ensure they can be accessed by authorized staff.
- ☐ Protect federal records from unauthorized destruction.
- ☐ Use government email account to conduct government business.
- ☐ Be aware that all email and attachments are captured and preserved.

Record vs. Non-Record

RECORD

Created/generated/received by an organization for use in technical or administrative work to conduct agency business, or

Contains informational value as evidence of the organization's functions, policies, decisions, procedures, operations, mission, programs, projects, or activities, or

Material that originated in another office or outside the agency, but which the agency commented or took action on, or

Documents business actions, such as: what happened, what was decided, what advice was given, who was involved, when it happened, the order of events and decisions, or

An original document related to agency business that does not exist elsewhere.

NON-RECORD

Drafts or interim documents that have not been circulated to others or do not contain substantive comments and for which a final version being maintained, or

Published or processed information received and used as reference, or

Copy of a document or correspondence kept only for convenience of reference on which no action is taken, or

Information accumulated and maintained at the workplace, but which does not affect or reflect the transaction of the program's business.

What is a Federal Record?

- Examples: Correspondence, Agreements, Studies
- Examples: Mission-related policy development, controlled correspondence
- Examples: Calendars, meeting minutes, project reports
- Examples: Administrative records, dockets
- Examples: Grants, contracts, litigation case files
- Examples: Guidance documents, policies, procedures

What is **NOT** a Federal Record?

- Examples: Sports schedules, PTA roster, personal appointments
- Examples: Vendor catalogs, phone books, technical journals
- Examples: Duplicate copies or correspondence, directives or publications
- Examples: Drafts with no substantive revisions or comments
- Examples: Rough notes, calculations

What is an Electronic Message?

When is an Electronic Message a Record?

On May 1, 2017, the Department of Justice announced that it would be releasing a report on the status of the records of the Office of the Inspector General (OIG) of the Department of Justice. The report, titled "Records Management of the Office of the Inspector General," was released on May 1, 2017. The report is a 100-page document that provides a comprehensive overview of the records management practices of the OIG. It includes a detailed description of the OIG's records management system, a list of the records that are maintained by the OIG, and a list of the records that are not maintained by the OIG. The report also includes a list of the records that are maintained by the OIG but are not accessible to the public. The report is a valuable resource for anyone interested in the records management practices of the OIG.

When is an Electronic Message NOT a Record?

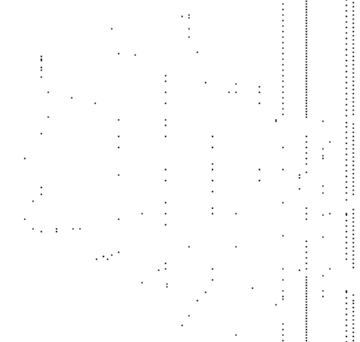

Your own electronic messaging relating to:

- ☐ Business, professional, or political activities unrelated to ED.
- ☐ Personal or family matters.
- ☐ Volunteer and community service.
- ☐ Work activities maintained solely as personal observations or as memory joggers and **not used for government business.**

Text and Instant Messaging Records

- ☐ ED policy prohibits use of text messaging or instant messaging for creation of federal records.
- ☐ Texts and IMs are considered “transitory records” and should be deleted after 30 days.
- ☐ If an electronic message is a record, you are required to capture, preserve and forward to the ED e-mail system. Here's how:
 - Copy the text message in its original format or transmission; and
 - Forward a complete copy of the record to your Outlook email within 20 days.
- ☐ There is currently no way to delete instant messages on Skype; we are working with OCIO on this.
- ☐ We recommend you manually delete transitory messages on your government phone every 30 days.

Capstone Approach for Managing E-mail in Enterprise Vault

- ☐ All e-mails sent or received from your ED email account are automatically captured by Enterprise vault. **EMAIL DOES NOT GO AWAY.**
- ☐ Emails from designated Senior Official are permanent records and will be transferred to the National Archives upon meeting their retention period.
- ☐ All other e-mails are retained for 7 years and then deleted (unless there is a litigation hold).
- ☐ You must file your e-mail when the related records must be retained longer than 7 years according to the records retention schedule.
Examples: Grant Management Case Files (10 years), Litigation Case Files (15 years), Federal Student Aid Files (10 years).

Do NOT Conduct Government Business On Your Personal Account

- ☐ Per the amendments of the Federal Records Act of 2014, an officer or employee of an executive agency may not create or send a record using a non-official electronic messaging account. If you do inadvertently use a personal account or device to conduct government business, you must:
 1. Copy ED email account of the officer or employee in the original creation or transmission of the record; and
 2. Forward a complete copy of the record to an ED email account **no later than 20 days** after the original creation or transmission of the record.

****Electronic messages created or received in a personal account meeting the definition of a Federal record must be forwarded to your ED email account prior to your departure.**

The Freedom of Information Act, 5 U.S.C. § 552

- ☐ Enacted on July 4, 1966, the Freedom of Information Act (FOIA) provides that any person has a right, enforceable in court, to obtain access to federal agency records.
- ☐ Federal agencies are required to disclose any information requested under the FOIA unless it falls under one of nine exemptions which protect interests such as personal privacy, national security, and law enforcement.
- ☐ The FOIA Improvement Act of 2016 requires greater transparency, and more limited use of the deliberative process privilege.

FOIA at ED

- ☐ ED typically receives 2300-2500 FOIA requests per year.
- ☐ FOIA is managed centrally by the FOIA Service Center.
- ☐ Each Principle Office has a “FOIA Coordinator” who coordinates FOIA searches for that office, as well as a “FOIA Senior Leader,” who oversees the process.
- ☐ When a request is submitted, the FOIA Service Center logs it into our system and tasks the request to offices that may have records.
- ☐ FOIA Coordinators and individual employees conduct the search. We have some “admin searches,” meaning that an employee searches all ED records centrally, using key words.
- ☐ We recommend that you mark e-mails that you believe may be protected from disclosure. This will help future reviewers, even if you aren’t here to review the message.

Time Limits

- ☐ Agencies must make a “determination” whether to comply with a FOIA request, and communicate this to the requester within 20 working days.
- ☐ The twenty-day time limit for processing a FOIA request can be extended ten additional days if unusual circumstances exist, such as:
 - The need to search for and collect records from multiple offices;
 - The need to search for, collect, and review a voluminous amount of records; or
 - The need to consult with another agency.
- ☐ For extensions of more than ten additional working days, the Department must also notify the requester, in writing, of the right to seek dispute resolution services from the Office of Government Information Services.

Releasing Information

Unless the record is protected from disclosure by any of FOIA's nine exemptions, ED is required to produce any reasonably segregable portion of a record that is requested.

FOIA Disclosure Exemptions:

- ☐ **(b)(1)** - Protects information that is properly classified in the interest of national security.
- ☐ **(b)(2)** - Protects information related solely to internal personnel rules and practices.
- ☐ **(b)(3)** - Protects information specifically exempted by other statutes.

1. (b)(1) - Protects information that is properly classified in the interest of national security.

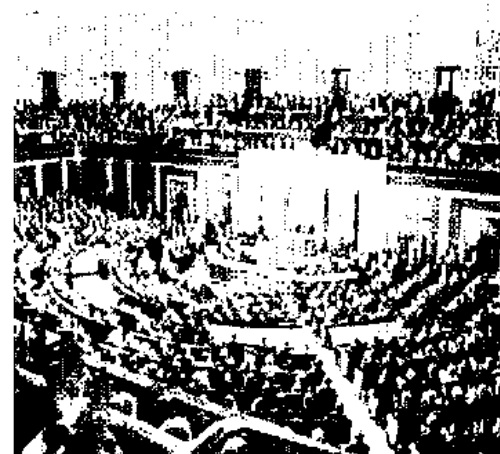

Releasing Information - *continued*

- (b)(4) - Protects information regarding examinations and reports that are confidential or would otherwise be withheld from public release under other statutes.
- (b)(5) - Protects information that, if disclosed, would result in the disclosure of information that is exempt from release under the Freedom of Information Act.
- (b)(6) - Protects personally identifiable information that is exempt from release under the Freedom of Information Act.
- (b)(8) - Protects information contained in or related to certain examination, operating or condition reports concerning financial institutions.
- (b)(9) - Protects geological and geophysical information and data (including maps) concerning wells.

What is the Paperwork Reduction Act (PRA)?

- ❑ The PRA requires all Federal entities to obtain OMB approval before requesting information from the public.
- ❑ “Collections of information” and “information collections” include all forms, interviews, record-keeping requirements and a large number of other data collection instruments.
- ❑ An Information Collection Request (ICR) is a formal request to OMB to collect information from the public. ICRs consist of:
 - The completed forms and documentation required by OMB.
 - A description of the collection.
 - An estimate of the number of responses and burden placed on the public.

“The Paperwork Reduction Act of 1980, as amended by the Paperwork Reduction Act of 1995, is the primary law governing the collection of information by the Federal Government from the public.”

“The Paperwork Reduction Act of 1980, as amended by the Paperwork Reduction Act of 1995, is the primary law governing the collection of information by the Federal Government from the public.”

The key drivers for the PRA process are:

- ❑ The Paperwork Reduction Act (PRA) of 1980, as amended by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).
- ❑ The Office of Management and Budget (OMB) regulations on information collections (5 CFR 1320, “Controlling Paperwork Burdens on the Public”).

What is the Timeframe for OMB Clearance?

- ❑ Usually up to 180 days (which allows for comment period notice publications and response to public comments). Most information collections are required to go through a 60-day public comment period while pending in ED followed by a 30-day public comment period when the information collection is submitted to OMB.
- ❑ Under the PRA, OMB may take up to 60-days to review, comment and approve the collection. Discretionary grants and customer surveys are the exception to this rule where there may be one or less public comment periods and/or require less OMB approval time.

Privacy Safeguards: Handling Sensitive Data

- ❑ **OMB defines PII as:** "information which can be used to distinguish or trace an individual's identity, such as their name, social security number, biometric records, etc. alone, or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, etc.".
- ❑ **PII can be non-sensitive or sensitive:**
 - **Non-Sensitive PII:** Information on a business card or in a public phone directory of agency employees is technically PII, but in most cases is not sensitive because it is widely available public information.
 - **Sensitive PII (SPII):** SPII, such as Social Security numbers, medical information, or financial information, requires additional safeguards because of the increased risk to an individual if compromised.
 - **Context Matters:** The context of the PII may also determine whether the PII is sensitive, such as a list of employee names with poor performance ratings.

Protecting PII

☐ Determining Safeguards

- The level of protection should be commensurate with the sensitivity of the data.
- Data, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual, must be protected with appropriate safeguards.

☐ Storage

- PII stored on network drives and/or in application databases must have proper access controls and should be made available only to those individuals with a valid need to know.
- SPII must also be encrypted.
- Only ED-issued and approved thumb drives can be used.

☐ Transmission

- All emails that contain SPII, especially SSNs, must be encrypted.
- You can use Outlook encryption or WINZIP <http://www.winzip.com>.
- Do not email the password in the text of the same email – send two emails.

Protecting PII - *continued*

☐ Hard Copies

- Do not leave hard copies of SPIL in plain view on your desk.
- Before you leave for the day, make sure you have cleared your desk and cabinet surfaces of all SPIL.
- Store SPIL in a locked cabinet.

☐ Disposal

- When you are ready to dispose of hard copies containing SPIL, you must shred the documents. Do not simply place them in the trash or recycle bins.
- Comply with records schedules. If you don't keep what you don't have to, it can't be lost or stolen, nor can it be disclosed under FOIA.

☐ Conversations

- Do not use speaker phones for sensitive conversations.
- Do not talk openly in public areas about personal information.
- Do not discuss personal information with anyone unless they have an agency need to know.

Privacy Breaches

- ☐ A privacy breach is the loss of control, compromise, unauthorized disclosure or acquisition, where PII is exposed to unauthorized people and/or for unauthorized purposes.
- ☐ This includes PII in any format and for a suspected or confirmed loss.
- ☐ If know of or suspect a privacy breach, you must notify your [SRO](#) or the [DOJ](#) as soon as possible.
- ☐ Immediate action is important because agencies must report a breach involving PII promptly.

Releasing Data – Disclosure Review Board

ED-DRB MISSION STATEMENT

The mission of the Department of Education Disclosure Review Board (ED-DRB) is to review proposed data releases by the Department's principal offices through a collaborative technical assistance process so that the Department releases as much useful data as possible, while protecting the privacy of individuals and the confidentiality of their data, as required by law.

What types of data releases need ED-DRB approval?

The ED-DRB is responsible for approving the disclosure avoidance methodologies for all data releases (of individual-level or aggregate data) by POs (excluding FSA and IES) that are derived from data protected under one or more privacy or confidentiality statutes (e.g., FERPA, IDEA, Privacy Act, etc.).

Attached are three documents for a bit more background:

1. A transition memo from Lisa Wardell, sent in December.
2. A letter from Lisa Wardell to Rob Goad, following-up from the higher ed listening session held immediately before the inauguration, sent in January.
3. A joint letter from AVMA and AAVMC on gainful employment, just sent this week.

Taken together, these documents give additional detail on Lisa's desire to speak about the impact of gainful employment on Ross University School of Veterinary Medicine, and they demonstrate Lisa's commitment to working with the Secretary and the Administration to forge common-sense solutions.

We are very excited for the meeting! In the interim, if you or your colleagues need anything further, please let me know.

Thank you,
Chris

Hi Sarah,

This date and time is confirmed! We expect the attendees will be:

Lisa Wardell, President and CEO, DeVry Education Group
Lisa Sodeika, SVP, External Relations, DeVry Education Group
Christopher Murray, Partner, Thompson Coburn LLP

We would like to provide the Secretary some background and context on the impact of the gainful employment rule on Ross University School of Veterinary Medicine, a high-quality and highly-regarded program. We would also like to lay the groundwork for a relationship between the Secretary and Lisa Wardell: Lisa is very interested in partnering with the Trump Administration on workforce training and higher education policy in any way that would be helpful.

I have a few documents that describe these two issues more fully. At the moment (b)(6) (b)(6) do not have direct access to those documents just now. But I promise to send them along just as soon as I get to a computer.

And of course, we are here to provide any information you need from us to make the meeting productive.

Subject: Meeting Request for Secretary DeVos: Lisa Wardell

Rob,

Lisa Wardell, President and CEO of DeVry Education Group, has asked me to request a meeting with Secretary DeVos on her behalf. The main purpose of this meeting is to share the impact of the gainful employment rule on Ross University School of Veterinary Medicine. But Lisa would also like to share DeVry Group's story and find ways that she can be of assistance to the Secretary and her team.

Regarding the Ross University School of Veterinary Medicine issue, attached is a joint letter from AVMA and AAVMC formally asking the Secretary to press pause on GE until Congress completes its work on HEA. From our vantage, we think that the two leading organizations on veterinary education speaking up on this issue is quite powerful.

Kindly let me know next steps for facilitating this meeting.

Thank you,
Chris

Mr. Robert Goad
Domestic Policy Council
The White House
1600 Pennsylvania Avenue, NW
Washington, DC 20500

Dear Mr. Goad:

Thank you for the opportunity to participate in your January 13th listening session. We look forward to further discussions with the administration in the coming weeks.

As we discussed in the listening session, our most immediate concern is amending the GE regulation to assure it does not lead to the closure of high-quality and highly-needed programs. Our case in point is our Ross University School of Veterinary Medicine (RUSVM). RUSVM's Doctor of Veterinary Medicine is a high-quality and highly-regarded program. RUSVM graduates more than 300 new doctors each year. Its graduates account for more than 4% of the veterinarians working in the US today. Notably,

- RUSVM is one of the 14 foreign institutions accredited by the American Veterinary Medical Association (AVMA). The AVMA is also the sole accreditor for all US and Canadian graduate veterinary programs.
- RUSVM's tuition ranks mid-range of U. S. private and out-of-state tuition rates.
- RUSVM's recent graduates' earnings rank among top US performers.
- RUSVM's cohort default rate has historically been less than 1% each year.
- Fewer than half of the 28 US veterinary schools with graduates to date would pass the GE debt to earnings requirement. Yet, GE applies only to for-profit DVM programs.

Key Findings

RUSVM's program is at risk of continuing because of the ill-fitting mechanics of the GE regulation to graduate professional programs. The RUSVM DVM program is in the upper half of the zone range and its debt-to-earnings measure will increase in the zone range for at least the next two years. By late spring, we will need to either make very costly changes to our operations to keep this program running or will be forced to begin winding down a program with very positive student outcomes. In any event, the changes required are not sustainable to maintain this program in the future. **Our need for relief under the GE rule is immediate, and we urge you to take action on GE in President Trump's first 100 days.**

Closing the RUSVM DVM program will result in the denial of an opportunity for thousands of qualified US citizens to seek a highly rewarding career in veterinary medicine, significantly and negatively impacting the US veterinary industry. We do not believe this is in the best interests of the US or its taxpayers and ask that the ED suspend all enforcement actions (warning requirements and program disqualification) until Congress has the opportunity to address the rule during its upcoming Reauthorization of the Higher Education Act.

More broadly, DeVry Group supports strong accountability measures across all sectors. All Title IV participating institutions rely heavily on student financial assistance funding and all should be accountable to taxpayers to assure students are receiving a quality education and adequate support to assure their success. We proposed several accountability mechanisms to the prior administration – ones that looked compositely at various graduate outcomes – and look forward to reviewing these with you.

Also, we noted that a number of institutional representatives at the listening session referenced dual enrollment programs. I'd like to briefly share our own very successful experiences with an offering we have made in concert with the public school systems in Chicago and Columbus. First offered in 2004, the DeVry University Advantage Academy is a public high school within each of those two cities.

Advantage Academy

Students enroll in the Advantage Academy at the beginning of their sophomore year of high school and take a blended mix of high school and college level courses for their final three years. The high school campus is collocated with our DeVry University campuses. When students complete their high school senior year, they graduate with both a high school diploma and an associate degree – with no additional out-of-pocket costs! This is accomplished through accelerated course offerings and two years of year-round attendance. The Chicago DeVry University Advantage Academy has the highest graduation rate (99%) among the Chicago Public High Schools with 80% of its graduates going on to pursue a bachelors degree. To date, 1,245 students have graduated from the DeVry University Advantage Academy with an associate degree – all with no debt and gaining a two-year head start on their peers. We are happy to share this model with others, if helpful.

Thank you again for the opportunity to participate in the listening session and to add to our comments. We look forward to further discussions of how we can best serve students and workforce needs.

Sincerely,

MEMORANDUM

TO: President-elect Donald J. Trump
FROM: Lisa Wardell, President and CEO, DeVry Education Group
RE: First 100 Days
DATE: December 5, 2016

Congratulations on your victory! As a fellow CEO and former RLJ Companies COO working in the hotel business alongside Bob Johnson, I am optimistic about the opportunity for you to bring an open dialogue and fresh business perspective to Washington. We have no time to waste.

In September, I had the privilege to visit with your campaign staff at Trump Tower. We had a wide-ranging policy discussion about education and workforce needs, and we have kept in close touch through the final weeks of the campaign and into the current transition.

As your administration takes shape, my colleagues and I wanted to share our initial thoughts for actions that you could take in your first 100 days to create a nimble, better-trained workforce:

- **Presidential Commission to Get America to Work Again.** We respectfully recommend that you convene the nation's leading minds on how to align our out-of-sync education and workforce systems. This action-oriented commission would have clear timelines and deliverables and provide detailed policy proposals by April 30 on *how to get America back to work* over the next four years. I would happily volunteer my time and DeVry Group's expertise to serve on the Commission.
- **Move Quickly to HEA Reauthorization.** DeVry Group supports a regulatory environment that links accountability to quality student outcomes and proper stewardship of federal financial aid. However, in order to develop a comprehensive approach to higher education and the workforce, and to ensure that regulations are operating in the best interest of all students, we recommend that you urge Congress to move swiftly on the reauthorization of the Higher Education Act (HEA). Simultaneously, the US Department of Education (ED) can continue to collect data consistent with current regulations but pause enforcement actions until after you sign a rewritten HEA into law. Secretary-designate DeVos will then be well-situated to "weed the garden" by comprehensively refocusing higher education in a manner that looks to the needs of students and the workforce.
- **Retain and Expand Experimental Sites.** One success from the current Administration was the deployment of experimental sites to promote innovation at ED, though too often these programs were limited to traditional colleges. As proprietary institutions have historically shown leadership in this area, experimental sites should be made more broadly available. Colleges serving a more diverse student body can, together, spur the types of innovations needed in education to strengthen America's future workforce.

President-elect Trump, on behalf of our students and my colleagues at DeVry Group, thank you for entertaining these initial ideas. We will make ourselves available to discuss these and any other matters of interest, with a mutual aim of providing solutions that work and help get America working again.

The Honorable Betsy DeVos
Secretary of Education
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202

Dear Secretary DeVos:

We urge you to take early action to forestall harmful, unintended consequences of the U.S. Department of Education's gainful employment (GE) rule. We are concerned that GE as written could lead to the closure of some professional programs, including at least one in veterinary medicine.

Though we support the spirit of the regulation – to provide consumers better information about the cost of education programs and the resulting debt – the fact that some high-quality and high-performing programs would be shuttered by the rule indicates to us that it must be carefully reexamined.

Veterinarians are maldistributed across the nation, especially in rural America. Many parts of the U.S. face critical shortages of veterinarians, which can lead to under-service for ranchers and farmers. This shortage is also felt in public practice, such as state departments of agriculture, diagnostic laboratories, and other critical areas relevant to animal disease surveillance and eradication.

We respectfully request that the Trump Administration suspend any punitive measures, while continuing the GE reporting requirements, pending reauthorization of the Higher Education Act. Congress should be given an opportunity to address this issue through the legislative process.

Thank you for your consideration. We are available should you have any questions about this or any topic related to veterinary education, and we look forward to working with you.

Attached are three documents for a bit more background:

1. A transition memo from Lisa Wardell, sent in December.
2. A letter from Lisa Wardell to Rob Goad, following-up from the higher ed listening session held immediately before the inauguration, sent in January.
3. A joint letter from AVMA and AAVMC on gainful employment, just sent this week.

Taken together, these documents give additional detail on Lisa's desire to speak about the impact of gainful employment on Ross University School of Veterinary Medicine, and they demonstrate Lisa's commitment to working with the Secretary and the Administration to forge common-sense solutions.

We are very excited for the meeting! In the interim, if you or your colleagues need anything further, please let me know.

Hi Sarah,

This date and time is confirmed! We expect the attendees will be:

Lisa Wardell, President and CEO, DeVry Education Group
Lisa Sodeika, SVP, External Relations, DeVry Education Group
Christopher Murray, Partner, Thompson Coburn LLP

We would like to provide the Secretary some background and context on the impact of the gainful employment rule on Ross University School of Veterinary Medicine, a high-quality and highly-regarded program. We would also like to lay the groundwork for a relationship between the Secretary and Lisa Wardell: Lisa is very interested in partnering with the Trump Administration on workforce training and higher education policy in any way that would be helpful.

Rob,

Amy Jones was kind enough to provide me with your contact. Not sure if you mentioned to you, but Scott Pulsipher, President of Western Governors University will be in Washington, DC next week. Do you have time on April 20th to meet?

Thank you very much,

Bill

UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF THE GENERAL COUNSEL

April 24, 2019

Beth France, Esquire
American Oversight
1420 K Street, N.W., Suite 800
Washington, D.C. 20005-2507

Re: *American Oversight v. U.S. Department of Education – Goad IV Production*
Civil Action No.: 1:17-cv-1247-TSC
FOIA Requests No.: 17-01479-F & 17-01480-F

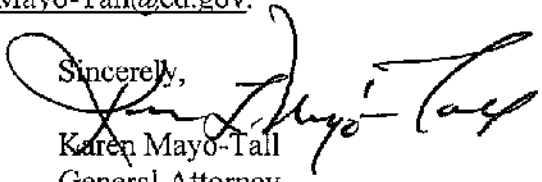

Dear Ms. France:

Enclosed please find a CD containing the Goad IV Production for April (531 pages). According to my calculations, there are 3,720 pages/11 sections left in the Goad calendar production. The last production in this case is the Toner calendar, which produced in the memo format, consists of 8,052 pages. We had discussed that the parties would reassess the need for a full production of the Toner following completion of the Goad production.

As FYI, I will be leaving ED effective May 10, 2019. A new attorney has not been assigned to this case as of yet; however, after such date, please feel free to contact my supervisor, Tracey Sasser, at Tracey.Sasser@ed.gov or (202) 401-6000 if you have any further questions about subsequent productions.

As always, if you have any questions or have trouble opening this CD, please feel free to contact me at 202 401-6607 or at Karen.Mayo-Tall@ed.gov.

Sincerely,

Karen Mayo-Tall
General Attorney

Hello Everyone,

It's the official return of the policy committee! We are kicking off the inaugural meeting on Thursday. These meetings will occur bi-weekly on Thursday for up to 90 minutes. Please do not forward this invitation. If you are unable to attend and would like to nominate a surrogate, please email me directly.

General Format:

30 Minutes – Policy Idea Discussion
30 Minutes – Policy Decisions
30 Minutes (if needed) – Fire Drills (last minute, unexpected issues that are time sensitive)

Discussion and Decision items need to be submitted 48 hours in advance. That means no later than EOD on Tuesdays before the Thursday meeting. Those should be sent to me with a CC to Martha Davis. If you have any questions or concerns, please feel free to reach out. Thanks!

See you all Thursday!

1. The first part of the document discusses the importance of maintaining accurate records of all communications, including emails, text messages, and social media posts. It emphasizes that these records are crucial for transparency and accountability, especially in government or corporate settings. The text suggests that failing to maintain such records can lead to misunderstandings, legal issues, and a loss of trust.

2. The second part of the document focuses on the role of technology in communication. It highlights how digital tools have revolutionized the way we interact, making it easier to connect with others across the globe. However, it also warns about the potential for technology to be misused, such as through phishing attacks or the spread of misinformation. The document advocates for responsible use of technology and the implementation of security measures to protect sensitive information.

3. The third part of the document addresses the challenges of managing communication in a fast-paced, globalized world. It notes that the sheer volume of information can be overwhelming, and that it is essential to have effective strategies for filtering and prioritizing messages. The text suggests that clear communication protocols and the use of collaboration tools can help streamline the process and ensure that important information is not lost.

4. The fourth part of the document discusses the importance of maintaining a professional and respectful tone in all communications. It stresses that even in informal settings, such as social media, it is important to represent oneself and one's organization appropriately. The text provides tips on how to handle difficult conversations and conflicts, emphasizing the importance of active listening and empathy.

5. The fifth part of the document concludes by reiterating the key points made throughout the text. It emphasizes that effective communication is a skill that can be learned and improved upon, and that it is essential for success in any field. The document encourages readers to take the time to reflect on their own communication habits and to make positive changes where necessary.

1. The first part of the document discusses the importance of maintaining accurate records of all communications, including emails, text messages, and social media posts. It emphasizes that these records are crucial for legal proceedings and can be used to establish a timeline of events.

2. The second part of the document outlines the steps for conducting a thorough investigation. This includes identifying all relevant parties, gathering evidence, and interviewing witnesses. It also stresses the importance of maintaining confidentiality throughout the process.

3. The third part of the document provides a detailed analysis of the evidence collected. It discusses the reliability of the sources and the consistency of the information. It also highlights any discrepancies or areas that require further investigation.

4. The fourth part of the document concludes with a summary of the findings and recommendations. It states that the investigation has identified several key issues and provides suggestions for how to address them. It also emphasizes the need for ongoing monitoring and reporting.

5. The fifth part of the document discusses the importance of transparency and accountability. It states that all findings and recommendations should be made public and that the organization should be held accountable for its actions. It also emphasizes the need for regular communication with stakeholders and the public.

6. The sixth part of the document provides a detailed overview of the organization's policies and procedures. It discusses the importance of having clear, written policies and procedures in place and emphasizes the need for regular updates and revisions.

7. The seventh part of the document discusses the importance of training and development. It states that all employees should receive regular training and development opportunities to ensure they are up-to-date on the latest industry trends and best practices.

8. The eighth part of the document discusses the importance of risk management. It states that the organization should have a comprehensive risk management strategy in place to identify, assess, and mitigate potential risks.

9. The ninth part of the document discusses the importance of ethical considerations. It states that the organization should have a strong ethical framework in place to guide all decisions and actions.

10. The tenth part of the document concludes with a final summary and recommendations. It states that the organization should continue to prioritize transparency, accountability, and ethical considerations in all its operations.

11. The eleventh part of the document discusses the importance of stakeholder engagement. It states that the organization should have a strong relationship with its stakeholders and should actively seek their input and feedback.

12. The twelfth part of the document discusses the importance of continuous improvement. It states that the organization should have a process in place to regularly review and improve its operations.

13. The thirteenth part of the document discusses the importance of financial management. It states that the organization should have a strong financial management system in place to ensure it is able to meet its financial obligations.

14. The fourteenth part of the document discusses the importance of legal compliance. It states that the organization should have a strong legal compliance system in place to ensure it is following all applicable laws and regulations.

15. The fifteenth part of the document concludes with a final summary and recommendations. It states that the organization should continue to prioritize all of these areas to ensure it is operating at the highest level of performance.

Maximizing the Return on All Investments

It is in the nation's interest that all funds disbursed by the Department be used to support practices for which there is evidence of effectiveness, or in the case of practices for which there is not yet evidence (e.g. new innovations), some funds are used to study and determine whether the practices are effective.

According to the Arnold Foundation, 80-90% of educational interventions are found not to produce the hoped-for effects when rigorously evaluated.

The Investing in Innovation (i3) program, is a tiered-evidence grant program that provided competitive grants to applicants with a record of improving student achievement and attainment in order to expand the implementation of, and investment in, innovative practices that are demonstrated to have an impact on improving student achievement or student growth, closing achievement gaps, decreasing dropout rates, increasing high school graduation rates, or increasing college enrollment and completion rates. The program incentivized, through its tiered structure and the emphasis on evaluation, the use of existing evidence as well as the generating of new evidence about what works in K-12 education.

In its seven grant competitions, i3 included a strong emphasis on evaluation through the evaluation selection criterion and the requirement of an independent evaluation, which focused on the strength and rigor of evaluation designs, generally tied to the What Works Clearinghouse (WWC) Standards. Beyond including an evaluation criterion, though, the program utilized peer reviewers with evaluation expertise, both academically and professional, to review and score applicant responses to the evaluation criterion, ensuring peer reviewers with a thorough understanding of education evaluation were assessing the quality of evaluation plans as described in grant application project narratives.

Along with the evaluation criterion was strong support in the form of technical assistance provided to the independent evaluators who helped design and implement these evaluations. This technical assistance took the form of regular check ins, assistance in finalizing and codifying grant evaluation designs, and problem solving as technical issues arose throughout the grant performance period and when evaluation data were being collected and analyzed. As a result, there is significant credible data being generated under i3 grants that can inform the broader education field.

Each i3 grant has a final evaluation report, and a large number of these evaluation reports for the first cohort of i3 grantees (and a small group of grantees from the second cohort) were reviewed by the WWC. 37 evaluation reports, consisting of 48 studies, have been WWC reviewed thus far. Of these 48 studies, 41 were eligible for WWC review, and of these 41, 33 studies met WWC Standards with or without reservations, a rate that is much higher than the usual 20-25% of studies reviewed by the WWC.

Summary of WWC Ratings by Competition

	Development	Validation	Scale-Up
<i>Studies reviewed</i>			
Number that meet standards	16	10	7
Meets standards without reservations	6	5	4
Meets standards with reservations	10	5	3
Number that do not meet standards	4	1	3
Number ineligible for review	7	0	0
<i>Total i3 studies by competition</i>	<i>27</i>	<i>11</i>	<i>10</i>

1. The first part of the document discusses the importance of maintaining accurate records of all communications, including emails, text messages, and social media posts. It emphasizes that these records are crucial for transparency and accountability, especially in government or corporate settings. The document suggests implementing a robust system to track and store these communications securely.

2. The second part of the document addresses the challenges of data privacy and security. It highlights the need for strong encryption and access controls to protect sensitive information from unauthorized access. The document also discusses the importance of regular security audits and updates to ensure the system remains secure against evolving threats.

3. The third part of the document focuses on the importance of clear communication and documentation. It advises on the use of standardized templates and formats to ensure consistency in all communications. The document also stresses the need for clear lines of responsibility and accountability for all communications.

4. The fourth part of the document discusses the importance of training and education for all personnel involved in the communication process. It emphasizes that regular training sessions are necessary to ensure that all personnel are up-to-date on the latest security protocols and communication standards. The document also suggests implementing a certification program to ensure that all personnel meet the required standards.

5. The fifth part of the document addresses the importance of maintaining a clear and concise record of all communications. It suggests using a centralized database to store all communications, making it easy to search and retrieve information. The document also emphasizes the need for regular backups and disaster recovery plans to ensure the integrity of the data.

6. The sixth part of the document discusses the importance of transparency and accountability in all communications. It suggests implementing a system of public access to records, where appropriate, to ensure that all communications are subject to public scrutiny. The document also emphasizes the need for clear policies and procedures regarding the handling of sensitive information.

7. The seventh part of the document discusses the importance of maintaining a clear and concise record of all communications. It suggests using a centralized database to store all communications, making it easy to search and retrieve information. The document also emphasizes the need for regular backups and disaster recovery plans to ensure the integrity of the data.

8. The eighth part of the document discusses the importance of transparency and accountability in all communications. It suggests implementing a system of public access to records, where appropriate, to ensure that all communications are subject to public scrutiny. The document also emphasizes the need for clear policies and procedures regarding the handling of sensitive information.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to develop a plan or strategy to address it. This may involve consulting with experts or stakeholders.

3. The third step is to implement the plan. This involves putting the strategy into action and monitoring progress.

4. Finally, the fourth step is to evaluate the results. This involves assessing the effectiveness of the plan and making adjustments as needed.

5. The fifth step is to communicate the results. This involves sharing the findings with the relevant parties and ensuring that everyone is on the same page.

6. The sixth step is to document the process. This involves creating a record of the steps taken and the results achieved.

7. The seventh step is to review the process. This involves reflecting on the experience and identifying areas for improvement.

8. The eighth step is to implement the improvements. This involves putting the lessons learned into practice and ensuring that the process is more effective in the future.

9. The ninth step is to monitor the results. This involves keeping track of the progress and ensuring that the plan is being followed.

10. The tenth step is to report on the results. This involves providing a summary of the findings and the actions taken.

11. The eleventh step is to close the project. This involves ensuring that all tasks have been completed and that the project is officially over.

12. The twelfth step is to reflect on the experience. This involves thinking about what was learned and how it can be applied in the future.

Maximizing the Return on All Investments

It is in the nation's interest that all funds disbursed by the Department be used to support practices for which there is evidence of effectiveness, or in the case of practices for which there is not yet evidence (e.g. new innovations), some funds are used to study and determine whether the practices are effective.

According to the Arnold Foundation, 80-90% of educational interventions are found not to produce the hoped-for effects when rigorously evaluated.

The Investing in Innovation (i3) program, is a tiered-evidence grant program that provided competitive grants to applicants with a record of improving student achievement and attainment in order to expand the implementation of, and investment in, innovative practices that are demonstrated to have an impact on improving student achievement or student growth, closing achievement gaps, decreasing dropout rates, increasing high school graduation rates, or increasing college enrollment and completion rates. The program incentivized, through its tiered structure and the emphasis on evaluation, the use of existing evidence as well as the generating of new evidence about what works in K-12 education.

In its seven grant competitions, i3 included a strong emphasis on evaluation through the evaluation selection criterion and the requirement of an independent evaluation, which focused on the strength and rigor of evaluation designs, generally tied to the What Works Clearinghouse (WWC) Standards. Beyond including an evaluation criterion, though, the program utilized peer reviewers with evaluation expertise, both academically and professional, to review and score applicant responses to the evaluation criterion, ensuring peer reviewers with a thorough understanding of education evaluation were assessing the quality of evaluation plans as described in grant application project narratives.

Along with the evaluation criterion was strong support in the form of technical assistance provided to the independent evaluators who helped design and implement these evaluations. This technical assistance took the form of regular check ins, assistance in finalizing and codifying grant evaluation designs, and problem solving as technical issues arose throughout the grant performance period and when evaluation data were being collected and analyzed. As a result, there is significant credible data being generated under i3 grants that can inform the broader education field.

Each i3 grant has a final evaluation report, and a large number of these evaluation reports for the first cohort of i3 grantees (and a small group of grantees from the second cohort) were reviewed by the WWC. 37 evaluation reports, consisting of 48 studies, have been WWC reviewed thus far. Of these 48 studies, 41 were eligible for WWC review, and of these 41, 33 studies met WWC Standards with or without reservations, a rate that is much higher than the usual 20-25% of studies reviewed by the WWC.

Summary of WWC Ratings by Competition

	Development	Validation	Scale-Up
<i>Studies reviewed</i>			
Number that meet standards	16	10	7
Meets standards without reservations	6	5	4
Meets standards with reservations	10	5	3
Number that do not meet standards	4	1	3
Number ineligible for review	7	0	0
<i>Total i3 studies by competition</i>	<i>27</i>	<i>11</i>	<i>10</i>
